ILLUSTRATIONS OF RING SETTINGS

No. 1

No. 2

No. 3

The Ring Mountings produced by the Company are of the finest material and workmanship, and above illustrations depict the most modern methods of setting gems.

1. Side view of the latest style of ring mount either for Single Diamond, Emerald, Sapphire or Ruby, etc., with small Diamonds set on the shoulders and round the side of the coronet.
2. Side view of another new type of setting for one or two Diamonds with the entire front of ring set with small stones.
3. Side view of a Single Pearl ring, showing the new scroll shaped mount with front and sides of the shoulders set with Diamonds.

The finest ring makers only are employed, and the time spent on mounting is not limited in any way. Excellence and high finish are the objects always kept in view, with the result that each ring is a work of art.

The Company make a special feature of mounting rings entirely in Platinum.
